### Protocols and Working Guidelines

Please see: <http://archaeometrie.sbg.ac.at/downloads.html>

In the download section of our congress website we have provided a platform for working guidelines for sampling as well as documents and forms related to the taking of samples. In order to adhere to the guidelines of individual disciplines, institutions and laboratories, we accept documents specific to individual institutions provided they are accurately labeled. Please submit additional forms in electronic form to [archaeometrie@sbg.ac.at](mailto:archaeometrie@sbg.ac.at).

All current versions will be provided as an appendix in the published congress proceedings - this bonus information will appear for the first time in print in ArchaeoPlus Vol. 4!

With kind regards and on behalf of the organizational committee,

Jan Cemper-Kiesslich, Felix Lang, Kurt Schaller, Christian Uhler,  
Michael Unterwurzacher und Doris Knauseder
